2.

For years, many people have enjoyed the spacious room and comfort of the full size motor home. At the same time, others have found that to truly enjoy this carefree lifestyle, the convenience and mobility of a van are of paramount importance. Wouldn't it be wonderful if one could enjoy the freedom and independence of motor home living in a unit that's small enough to be truly free?

In 1981, Home & Park Motorhomes expended the time and effort to design a small, fuel conserving recreational vehicle with comfort and practicality uppermost in mind. The result was a new creation that gave you the best of both worlds; the Roadtrek Motor Home Van. Since then, Home & Park has refined and improved Roadtrek that now it truly believes it's a motor home.

Roadtrek Is A Van.

Before we tell you about why Roadtrek thinks it's a motor home, let's discuss a few qualities that prove it's still really a van.

Roadtrek Is Fuel Efficient.

Any vehicle's fuel efficiency is directly dependent on its aerodynamics and weight.

Roadtrek is much more streamlined than traditional motor homes or camper vans (1). It's astonishing aerodynamics can be attributed to a few basic factors. The profile is not only lower, but raises the wind much more efficiently.

But, the aerodynamics don't end there. Once raised, the wind travels effortlessly along the rearward sloping roofline and down the tapered rear of the vehicle.

Roadtrek is much lighter than the typical motor home. This too, contributes to its fantastic fuel economy. Designed to be streamlined and lighter, Roadtrek is more economical to operate. It's as simple as that.

But Is Roadtrek Simple And Comfortable To Drive?

It certainly is! Unlike larger motor homes, Roadtrek is as easy to drive as the family station wagon. Because the body has not been widened like other wide body vans, it is effortlessly manoeuvred through congested downtown traffic or into a crowded parking lot.

Not only is Roadtrek simple to drive and park, but its comforts rival even the most luxurious automobiles. You'll appreciate its generous window area, many standard automotive features and adjustable lumbar supports in the captain's seats when you're midway through a lengthy journey.

Roadtrek Is Practical For Everyday Use.

Because it's easy to drive, economical and comfortable, your Roadtrek need not sit idle between vacations. And not merely for day long trips to your favorite resort, but likewise for daily commuting.

In fact, because of the pleasing appearance, you'll be proud to drive anywhere in your new Roadtrek!

Why Does Roadtrek Think It's A Motor Home?

Because within the exterior dimensions of a van lies a true motor home. Most of their qualities can be found in the Roadtrek Motor Home Van.

3. Roadtrek Versatile and Independent are equipped with a 6'2" x 52" comfortable double bed that converts to a spacious dinette (C2).

4. Roadtrek Popular offers twin beds for those who demand separate sleeping arrangements (C4).

5. For those who require more lengthy or roomy sleeping quarters, Roadtrek Popular can also be converted to a 6'3" x 6'2" king size bed (C4).

For years, many people have enjoyed the spacious room and comfort of the full size motor home. At the same time, others have found that to truly enjoy this carefree lifestyle, the convenience and mobility of a van are of paramount importance. Wouldn't it be wonderful if one could enjoy the freedom and independence of motor home living in a unit that's small enough to be truly free?

In fact, because of the pleasing appearance, you'll be proud to drive anywhere in your new **Roadtrek**!

Why Does Roadtrek Think It's A Motor Home?

Because within the exterior dimensions of a van lies a true motor home. Most of their qualities can be found in the **Roadtrek Motor Home Van**.

3. Roadtrek Versatile and Independent are equipped with a 6'2" x 52" comfortable double bed that converts to a spacious dinette (C2).

4. Roadtrek Popular offers twin beds for those who demand separate sleeping arrangements (C4).

5. For those who require more lengthy or roomy sleeping quarters, Roadtrek Popular can also be converted to a 6'3" x 6'2" king size bed (C4).

6. and 7. Three section layout provides many advantages over traditional camper van designs: comfortable and proximate seating for four while driving, private sleeping sections at bed level for up to four, complete mobility when beds are set up, possible separate eating and sleeping sections for two, choice of two eating areas, centrally located bathroom and large privacy area.

8. Combination shower and wardrobe (B3) provides complete bathing facilities while maintaining the necessary space for hanging clothes.

Although small on the outside, on the inside, **Home & Park** takes advantage of every inch of space. Swiveling the driver's and passenger's seats 180 degrees provides ample room for eating, entertainment, and relaxation. And when it comes to daily living, standing height for persons up to 6'6" is maintained. It's simple. Instead of a low roofline, the interior floor is raised. That way, a comfortable standing height can be maintained.

But the comfort and spaciousness are not the only advantages. Up to four people in large comfortable beds can sleep without sag or gap to endure. The Roadtrek has two single beds at the front. If separate sleeping arrangements are desired, the front can be converted into two very comfortable twin beds; one for those who require more length. Popular can also be converted into two single beds at the footend to stretch out your legs.

And if there are only two of you, with our patented cloverleaf dinette area at the front, you can leave the dinette open and use it as a lounge. That way there is no need to make up the dinette every morning, as is the case with most others on the market!

Access to the bathroom at night is simple. No need for climbing over several of your campers.

Roadtrek's Patented Bathroom

Instead of forcing you into a small, cramped bathroom, **Home & Park** has a large, open bathroom. No need, the bathroom (marine toilet) is always ready.

To use the bathroom simply open the closet doors. A private area is created (7). The closet doors also provide storage space. It's incredible that no one had thought of it before.

The shower is equally amazing (8). It doubles as a wardrobe on the hangers out over the bed, fold down the tub cover and you're ready to be believed!

And when it comes to storage space, **Roadtrek** has more storage space than any other in the industry. When equipped with our rear storage trunk and front storage, you have 65 cubic feet of useable storage space!

A fully equipped galley including a 'Dometic' 3.0 cu. ft. refrigerator, oven, LP gas stove, exhaust fan, sink and monitor panel. It's completely self contained for independent use. Now you can travel in comfort and convenience.

What's An Innovative Design Without Quality?

Nothing. We know that you demand quality. And quality is what you get. As members, all **Home & Park Roadtreks** meet and exceed the highest vehicle standards.

Not only is there quality in their design, but also in their construction. Quality control to ensure craftsmanship and dependability.

Roadtrek Is Backed By A New Warranty!
