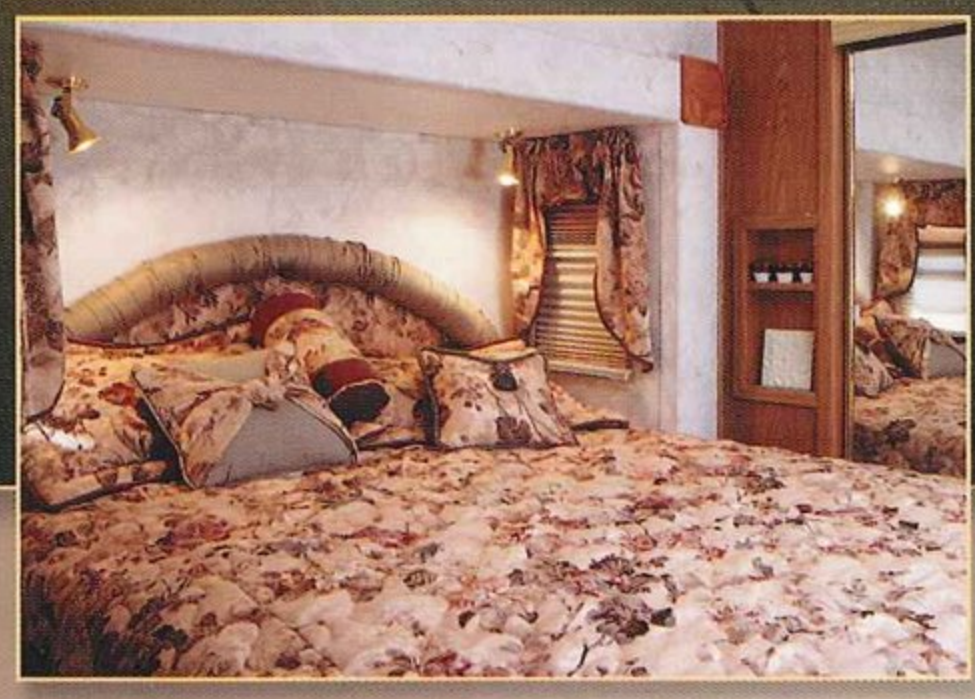
Reach for the Sky...

BIG SKY Montana

Shown below, the slide-out bedroom has large windows on both sides which provide generous lighting and full cross ventilation. This eliminates 'cold' air at your head while sleeping during a cool evening, as well as allowing a comfortable position to sit.



Ravishing appointments throughout Big Sky are evidence of Montana's commitment to superior styling and quality. Absolutely every detail in Big Sky has been designed to improve its appearance and function. These details put Big Sky Montana with the most luxurious fifth wheels available.

A taller roof profile provides 9" additional cabinet space in the rear, and creates a more residential appearance and feeling. We achieved this interior space without creating the 'boxy, flat roof profile' seen on some fifth wheels.

Premium interior lighting fixtures combine 110V and 12V power sources, and include fluorescent lighting, developing a comfortable atmosphere that works for cooking, reading or simply relaxing.

With Big Sky, all our furniture is upgraded. The recliner is also a

Big in Style, Comfort & Quality

Our skyview window over the slideroom opens your interior to the beautiful outdoors. You'll find dining is easier and more enjoyable with our drop leaf table. Wood appointments, decorative light fixtures, premium day/night shades add beauty and function to the Big Sky Montana.

glider, featuring a high back for more comfort- features not usually found outside a residential setting. Dinette chairs also have towering backs and beautiful upholstered fabrics that lend comfort and endurance.

Unique seamless, granite composite countertops feature rounded corners usually found only in residential homes. Long lasting and extremely easy to maintain surfaces are benefits you'll appreciate throughout your travels, and our integrated sink eliminates potential water leaks.

Fluorescent lighting is placed to provide well-balanced and extremely functional lighting alternatives.

Strategically placed roof attic vents provide vital 'escape' routes for unwanted moisture that can accumulate with extended use.

Convenience and function are built-in with this handy 'pull-out' spray attachment at the kitchen sink.

No plastic here! All Big Sky models feature easy to clean real porcelain toilet fixtures.

On the cover. . . Each Big Sky Montana uses easy to maintain high gloss fiberglass, which is also highly resistant to fading. We didn't stop with the walls– all storage doors also use the same fiberglass so that years from now, your fifth wheel will still have a uniform, beautiful finish.

Big Sky Montana Fifth Wheel is a product of the Goshen division of:
