Free Spirit 210A

Powered by an amazingly quiet Mercedes-Benz CDI turbocharged diesel engine, with plenty of power, excellent fuel economy and a long service life.

Free Spirit: Let Your "Spirit" Soar!

Based on the all-new Daimler Chrysler chassis, the Free Spirit drives like a Sedan. In fact the chassis is built like a car; with unibody construction, rack and pinion steering, independent front suspension, a 5 speed automatic transmission, four-wheel disk brakes, ABS and skid control. This combination gives the Free Spirit performance, maneuverability, handling and a ride quality vastly superior to anything else in its class.

Standard Chassis Features

- GVW: 8,550 lbs
- Towing Cap: 5,000 lbs
- Carrying Cap: 1,000 lbs
- Engine: MBE 600 2.7 litre Turbocharged 5 cylinder diesel
