

Live the Adventure ... on your terms

Yearning for the great outdoors ... but don't really want to "rough it"?

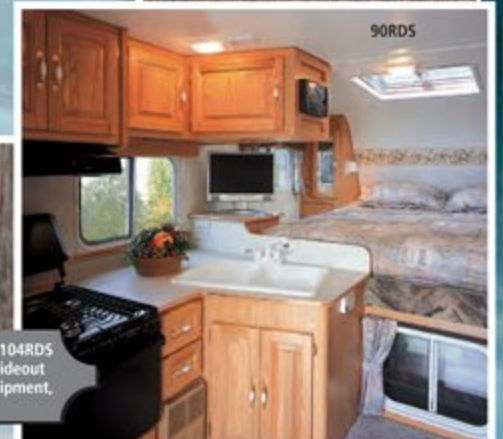

Shed those nasty images of "tenting" on the cold, hard earth - travel in comfort, with a camper from Adventurer Manufacturing. Our truck campers are built for maximum comfort and durability, and are able to take you up the steepest of mountain trails, and access the narrowest of shorelines and bluffs, to that remote getaway you've been dreaming of in your quest to "get away from it all".

Whether it's that secluded lake full of trout that beckons, that regional park with trails and wildlife for the entire family to enjoy, or friends to visit across the country, RVing is a versatile, economical and hassle-free way to travel - there really is no need for costly airline tickets, line-ups and delays, or expensive meals out anymore.

Live the dream, affordably, without sacrificing the comforts of home...

"OUR COMPANY REALIZES
THE CUSTOMER IS THE BOSS".

James Epp, President of AML

The 90FWS, 90RDS and 104RDS models have a large slideout tray to store sports equipment, games, etc.

36
YEARS

Our attractive interiors and durable exteriors are built to withstand the rigors of outdoor living. The craftsmanship and attention to detail is evident everywhere you look - cabinet doors that fit precisely, windows that seal tight even in the most inclement weather, beautiful upholstery and furnishings, extra storage etc. all add up to, we believe, the best value in the industry.

810WS

The overhead bed area has more headroom than our competitors making it easy to get in and out for all ages.

810WS

For the Adventurer in you...
be one - own one

Try birdwatching in the majesty of the forest, relax with a good book, or even take a nap, while the kids explore the never ending trails nearby. With interiors this luxurious, you may never step foot outside...

Adventurer Manufacturing's 36 year history is built on its commitment to complete customer satisfaction. Our team of manufacturing specialists are dedicated to ensuring excellence in all areas of design, engineering, construction and assembly. Demonstrating a proven ability to listen and respond to our customers' needs, the company has grown from a small regional operation to an international industry leader, with an unrivalled reputation for outstanding service, quality and value.

Experience the "Adventurer" difference...

"NEVER BE SATISFIED UNTIL GOOD
IS BETTER AND BETTER IS BEST".
Erdman Epp, Founder of AML

810WS

Designed over 25 years ago at our manufacturing site, the 810WS has often been copied by others in the industry but never successfully duplicated. Only Adventurer Manufacturing can claim the original design. Also available with a short box option and fully installed generator.

90FWS

The 90FWS offers a forward bath, in-floor tanks, a full side dinette, and over 20 cubic feet of outside storage. Designed to fit the 3/4 ton trucks.

90RDS

The highly economical 90RDS features a functional layout and modest weight. A power slide expands your living area with the simple push of a button. Adding a generator will increase its flexibility even more.

100WSB

A great benefit of the 100WSB is its very popular layout, including a large L-shaped galley and generous storage space both inside and out. With heated holding tanks, generator-ready status, and other great options, you're prepared for any kind of weather.

104DSS

The 104DSS features a very attractive floorplan with rear bath and dry shower. Also generator-ready, additional floor space is created from a power slide, with plenty of storage inside and out.

106DBS

The 106DBS is aimed to please anyone looking for the ultimate camping experience. This unit packs the most floor space possible into the back of a pick-up. With a dry shower, dinette power slide, and generous storage, the 106DBS offers you the best in the Truck Camper market.

Cross Section

Framing an Adventurer truck camper is a craft in itself. All materials are pre-cut and hand assembled without the use of jigs to provide a tighter, stronger fit at all of the joints.

- 1 Our optional fiberglass side wall is constructed with two layers of 1/8" luan. The laminated luan is strategically staggered under the fiberglass so that the seams do not show through. This results in a flatter, smoother wall while providing extra strength to the side walls.
- 2 All of our units use flush-frame safety glass radius windows with gusseted corners.
- 3 The heated enclosed holding tank area is insulated with reflectics. The heat ducts in the holding tank area ensure a warm area when the furnace is in operation, leaving the zone dry at all times.
- 4 .025 Profiled aluminum exterior with baked enamel finish is standard (Fiberglass exterior standard on all slide-out units).
- 5 Generous exterior storage space.

8.

85WS

- 6 Tie-down brackets are bolted to the main wall and wing wall for extra reinforcement and strength.
- 7 Corners built to last are reinforced with galvanized metal and 1 1/2" aluminum angle for bolting the jacks in place.
- 8 All cabinets are attached by placing screws through the main wall & roof members into the main cabinet members providing a much stronger cabinet attachment.
- 9 The Happijack camper jack system continues our tradition of quality manufacturing. Providing over 34" of lift, the Happijack screw jack safely raises and lowers the camper with ease, ensuring optimum efficiency and performance, while enhancing the look of your camper. Our unique concave footpad design reduces movement and provides greater stability than convex footpads.
- 10 Rubberized undercoating in all critical areas provides longevity to the unit.
- 11 Floors, underbunk, walls and roof are insulated with high density fiberglass insulation.
- 12 Large Emergency Escape Hatch.
- 13 Floor on overhead bed is bolted in place with 3 1/4" bolts on each side.
- 14 Adventurer uses only the best building material, 100% kiln dried spruce and plywood. To make it the best wood framed camper on the market, absolutely no particle board is used.
- 15 Aluminum roof is standard build with a Limited Lifetime Warranty. Optional Rubber roof with a prorated 12 Year Warranty is available.
- 16 Optional moulded fiberglass nose caps are available on 80HL and up.
- 17 Optional Reflectics Wrap provides the unit with extra insulation (Aluminum exterior only).

***Not Available on 76R

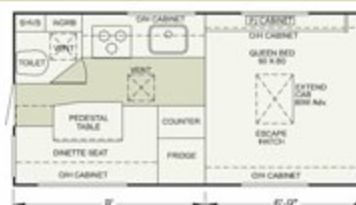

76R

The 76R is our smallest Truck Camper. It is small enough to fit in the shortest of import truck boxes, yet this unit seems larger than any other import camper on the market today. It is lightweight, very sturdy, and provides plenty of room for those weekend get-a-ways.

80HL

The 80HL is built specifically for the person who has the basics in mind. This is truly a lightweight unit with a very affordable price tag.

80W

The 80W Truck Camper is a popular camper in the half-ton truck market. The added washroom in this 8 foot Camper increases the comfort and convenience of your camping experience, while still reasonably priced.

85WS

The 85WS sports the ideal floor plan for those weekend getaways. This unit has it all – full bathroom, generous storage, and even with the extra options, this unit is still light and economical.

810W

The 810W features a very functional floorplan at a great price. This Truck Camper is perfect for adventuring off the beaten path whether it's hunting, fishing or just enjoying the less travelled roads.

Discover another world

Ever feel like just picking up and hitting the open road? This kind of freedom to come and go as you please is possible. Just load the camper onto your truck and you're ready for a new adventure. Add a hitch and trailer and bring your boat, ATV, dirt bikes; whatever completes your recreational fantasy... or hook up your horse trailer and arrive at that next competition in style.

Unlike many other recreational vehicles, truck campers from Adventurer Manufacturing are compact and lightweight, with the ability to access areas that larger vehicles and hitched trailers are unable to. That means that groceries and other supplies are always within reach.

The freedom of travel... the comforts of home. With a truck camper from Adventurer Manufacturing you can enjoy a different view every day. Because at the end of the day, home is where you hang your hat, and if you have a magnificent sunset just outside your back door, well then life is even grander...

"...THE REASON PEOPLE
HIT THE ROAD IN RVs IS THE SAME
AS IT EVER WAS: PEOPLE LOVE THEIR FREEDOM".
David Woodworth, RV Historian

Quality Details to take you there in comfort and style

MULTI TAN

MERLOT BURGUNDY

All Adventurer interiors feature durable, long-wearing, easy care fabrics and furnishings made from premium quality materials, and used specifically for industrial applications.

Our fabrics are carefully selected by our in-house interior designer, providing you with beautiful colours, patterns and textures that will enhance the living space of your camper, as well as stand up to the wear and tear of active outdoor living.

SHERWOOD GREEN

Choose any one of our colour coordinated interior fabric combinations that best complement your own personal taste and sense of style.

After all...this is your home away from home...

3-year Limited Structural Warranty

36
YEARS

All Adventurer products are warranted to be free of defects in materials, or workmanship, for 36 months from date of delivery to the original purchaser and will be repaired or replaced, within this period, at the discretion of the manufacturer at approved service centres.

Any component carrying its own guarantee shall be covered under the conditions and terms of its manufacturer. This warranty does not cover damage caused by misuse, accident, alteration, improper maintenance or rental. Contact your dealer for details.

Notice

Adventurer Manufacturing Ltd., whose policy is one of continuous improvement, reserves the right to change any of the specifications without prior notice and without incurring any obligation.

If you have any questions about our product line, please don't hesitate to contact your nearest dealer.

When purchasing an Adventurer Truck Camper, there are a few important factors to consider:

How much weight will your truck handle? The payload capacity is usually posted in the glove box on most trucks. What is your (GVWR) Gross Vehicle Weight Rating, and (GAWR) Gross Axle Weight Ratings? These are usually posted on the driver's side door post.

As the owner, it is your responsibility not to exceed the weight specifications of your truck when purchasing a truck camper. Always think safety first before loading a camper on your truck. We recommend that you have a set of AIR BAGS installed.

Adventurer makes no warranty with the performance or reliability of your truck when carrying an Adventurer truck camper. Consult your authorized Adventurer Dealer for additional information.

If you need service on your Adventurer while away and you are not near an Adventurer dealer, just stop in at any reputable RV Service Center and have them contact Adventurer for authorization to repair your unit under warranty.

...discover another world

Our vision is to manufacture affordable products that can compete in durability, design and features with recreational vehicles costing far more.

To succeed in our mission, we apply the corporate standard established by Erdman Epp, Founder of Adventurer Manufacturing Ltd. His rule is short, simple, and successful: "We're never satisfied until good is better...and better – best!"

The result of our total commitment to this principle is the Adventurer Series – made for the adventurer in you, as you explore God's beautiful creation.
