

2005 DAMON CHALLENGER

Prewitt, New Mexico

You've just found the most motorhome for the money. Challenger.

WELCOME TO PARADISE.

Paradise is where luxury doesn't cost a fortune and amenities grow on trees. And it's where you are when you step inside the stylish 2005 Challenger Motorhome. Our new Challenger is a wide body with a full basement and multiple pass-through storage compartments. Challenger is filled with amenities that you would normally find in higher priced motorhomes. And it's all

rolled into one beautiful package that surpasses your expectations but doesn't exceed your budget.

LUXURY AMENITIES.

A Carrier® ducted air conditioner is mounted on the roof and has a remote thermostat so you can adjust the temperature from inside your Challenger.

Huge 40-inch-deep living-area slideouts and 30-inch-deep bedroom slideouts are available on select models to provide a wide-open interior usually found on higher priced motorhomes.

Challenger's aerodynamic gelcoated front and rear fiberglass caps offer a sleek, stylish appearance.

FLOOR PLANS

Damon offers a variety of floor plans and options. All provide the roomiest, most convenient mobile living experience you've ever had.

327

40-inch living-area slideout • 30-inch bedroom slideout • Private stool area

335

Generous closet space • 40-inch living-area slideout

348

Living-area slideout • 30-inch bedroom slideout • Garden tub

353

40-inch living-area slideout • 30-inch bedroom slideout

371

Dual-zone living • 40-inch living-area slideout • Floor-mounted television

MORE DELICIOUS DETAILS.

It's easy to enter and exit Challenger's captain's chairs, since the low-profile engine cover takes up so little floor space.

Cabinet doors are handcrafted with solid-wood for durability and long-lasting beauty.

Beautiful side-mounted awnings let you enjoy the patio, rain or shine. They also protect slideouts from detrimental weather.

Four-point hydraulic leveling jacks come standard on all Challenger slideouts and operate with an electric touchpad control.

A 5,000-lb. heavy-duty trailer hitch lets you tow most SUVs.

The kitchen is vinyl tile floor which is easy to keep clean and won't scratch or dent. It's easy to keep your cooking supplies organized in Challenger's huge pantry with adjustable shelves and roll-out drawers.

There's plenty of room for your active life, thanks to extra-large, extra-strong multiple pass-through rotocast storage compartments. Plus, they have drain valves for quick wash out.

110-volt/12-volt outlets in the cockpit let riders use laptop computers, telephones and other electronic devices.

The optional driver's side door makes fuel stops easy. Features a slider window and lock for added convenience and security.

Premium AM/FM/Pioneer® CD player in the cockpit dash comes standard.

SIDEWALLS

Sidewalls are five layers thick, consisting of:

- Exterior fiberglass
- Wood backer
- Aluminum frame
- Bead-foam insulation
- Interior wallboard

Walls are also vacuum-bond laminated for added strength and rigidity.

FLOOR

A water-resistant, Structurwood® floor supports the living area. Framed in 1.5-inch welded-steel tubing, it's insulated with solid bead-foam and protected with a galvanized underbelly, providing rust and corrosion protection.

BUILT WITH A REMARKABLE BALANCE OF STRENGTH AND SOPHISTICATION.

ROOF

Challenger's roof is vacuum-bond laminated for superior strength and rigidity. It features an aluminum rafter support system with bowed rafters to maintain the roof's crowned shape. A crowned roof permits better water runoff, which helps prevent leaks.

BASEMENT AND STORAGE

The Challenger basement construction incorporates a strong, welded-steel truss system. Trusses are horizontal to better distribute weight. They also allow for Challenger's full basement and massive pass-through storage compartments.

UTILITIES

Travel in any season because of Challenger's heated holding tanks and fully contained plumbing systems. Tanks are mounted horizontally, making service and maintenance easy.

CHASSIS

Quality construction starts here. And Challenger uses only the finest: either a rugged Ford® or Workhorse® chassis depending on the floor plan.

FEEL RIGHT AT HOME.

Now it's time to choose your favorite fabrics, paint colors, wood styles, floor plans and other options. No matter which model and design package you choose, you can be assured that every Challenger Motorhome we make is built the same way — the right way — with the same high-quality materials, components and state-of-the-art construction techniques.
