M2 TOURING COACH

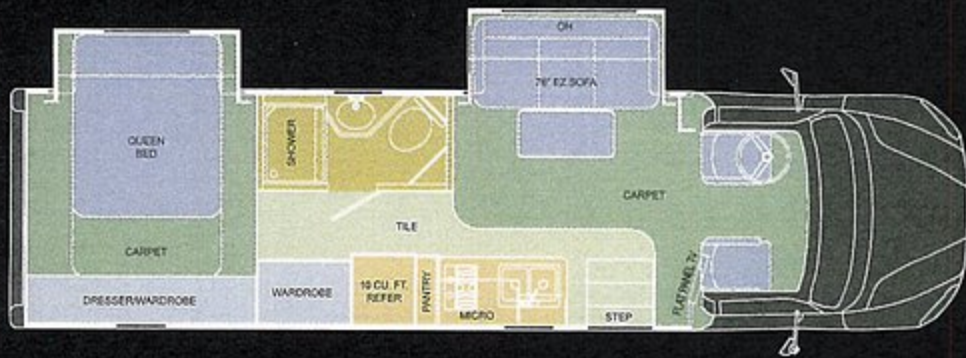

350SL, Natural Maple, Terra Cotta  
Shown with optional fabric dinette

**Why settle for ordinary?**

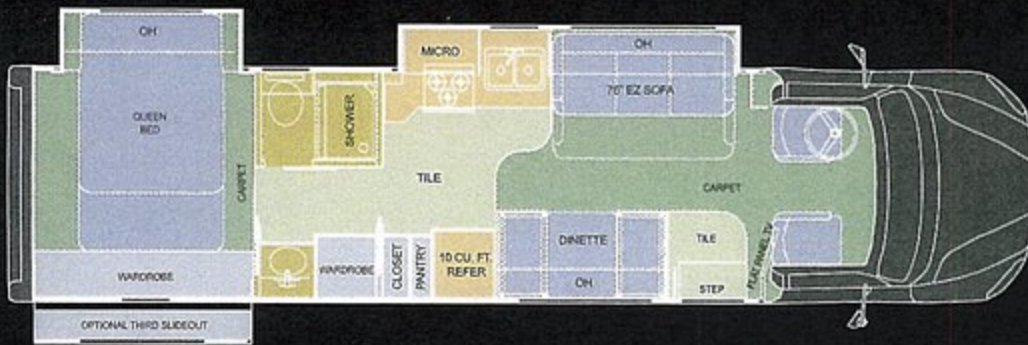

We certainly didn't. Our goal from day one was to design a vehicle that was like no other — one that looks better, drives better and actually is better than the world of look-a-like, box-like buses. And we succeeded. In fact, the Grand Sport M2 has even exceeded our own expectations. It's more drivable, has more power and is more maneuverable than any bus. This is truly a motor coach that's extraordinary.

The Grand Sport M2 Touring Coach.

Whichever floor plan you choose, you can be sure it's been thoughtfully designed to provide a beautiful, comfortable, convenient living experience — just like home.

The cockpit of the Grand Sport M2 is designed by engineers who understand long distance driving. You can take comfort in the ergonomic seating system, the convenience of having controls close at hand, and the exceptional visibility provided by the panoramic windshield and well-lit dashboard. And the optional GPS navigation system will keep you on the road to your destination.

**Craftsmanship is in the details.**

Our beautiful cabinetry and wood accents are comparable to what you'd find in the finest homes — made of solid hardwood and crafted with discriminating styling for durability and long-lasting beauty.

**Inner beauty**

Grand Sport engineers and interior designers have created a choice of beautiful fabric environments that not only make you feel at home, but also lend a sense of your personality.

Our engineers and interior designers have also created many beautiful exterior full-body paint packages and interior design environments to help you feel right at home. You can opt to match a full-body paint package with interior upholstery, carpeting, Corian® countertops, window valances and Armstrong® flooring to create one beautifully coordinated package. Or, you can pick and choose from our colors, fabrics and swatches to customize your Grand Sport with a sense of your own personality.
