THE MINI-MOTORHOME WITH MEGA-QUALITY AND MEGA-STYLING. AFTER ALL, IT'S A MONACO.

Looking for a mini-motorhome that's easy to drive and easy to own? Look no further. The 2006 Esquire combines the legendary quality, craftsmanship and owner support you'd expect from a high-end Monaco coach, with the convenience and affordability of a mini. Yes, even in our smallest motorhome, you're enthusiastically welcomed into the Monaco family — and that's a worry-free way to see the country. So gather up the kids and all your gear. You're headed for some mega-adventures.

The Monaco Esquire's distinctive styling starts with the quality and beauty of the woodwork. Highlights include cabinet doors with woven raffia inserts and wood slide-out fascia with fabric inserts. For durability, you can count on wood drawer boxes and heavy-duty ball-bearing drawer guides. And for easier use, the overhead cabinets are top-hinged and self-supporting. Throughout the interior, satin nickel hardware, kitchen faucets, bath accessories and decorative lighting unify the decor.

- 1 Versatility is the buzzword in the galley, with plenty of countertop workspace and roomy storage space. The large double-door refrigerator is perfect for longer intervals between pit stops, and the combination convection/microwave oven has easy-to-use settings for many styles of cooking. (27PBD, Champagne Select, Birch Bark)
- 2 This optional built-in radio/CD player makes an excellent addition to the living area. (27PBD, Champagne Select, Birch Bark)
- 3 The vanity and medicine cabinet provide roomy, secure storage for all your necessities. The decorative wallboard and attractive wallpaper border carry into the bathroom, and the newly styled satin nickel vanity lights add a delightful finishing touch. (27PBD, Champagne Select, Birch Bark)

1. Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.
2. All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.
3. Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco Coach provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight.
