Ultimate Comfort and Luxury

Hickory Edition

Your first glance in the inside of the Big Sky will reveal an immediate sense of elegance. The large rear window brings nature and an abundance of natural light into your living space. All of the wood work is solid Hickory including the stiles, end panels and crown molding. The overhead cabinets are as spacious as they are elegant. The curio-style overhead cabinets are leaded glass accented with pewter hinges and hardware. In the kitchen, the cabinets are solid raised panel Hickory with matching pewter hardware. The cabinets are crown molded on the top and the bottom for added appeal. The kitchen area contains an island kitchen (358RLT) that creates an open spacious atmosphere while all of the appliances remain close at hand. Appliances include a 30" OTR convection oven/microwave with a built in range hood and a 12 cu. ft. four door refrigerator.

Big Sky Living

The 358RLT and 365REQ entertainment centers are equipped with a 40" LCD Television that stores in the entertainment center base for security and protection during travel. The television electrically rises from the base by remote control for viewing. The Big Sky 340RLQ has a 32" HD Television on a swivel shelf. The entertainment centers also contain a DVD/CD Player with a 5-1 Surround Sound System. All of the counter tops in Big Sky are solid surface Corian® which highlight the natural beauty of the Hickory. All three floor plans have an electric fireplace further accenting their beauty and functionality. All Big Sky's have upgraded decorative lighting through out the coach including flush mounted halogen puck lights.
