ALPINE

ALPINE 3640RL IN FRENCH ROAST DECOR

**THE ALPINE WAS CRAFTED AND
ENGINEERED BY THE INDUSTRY'S
LEADING INNOVATORS AT KEYSTONE RV**

With the mission of bringing a product to the market that surpassed your expectations in quality, aesthetics, and livability — The Alpine is all you've been asking for.

So come experience the Alpine's cutting edge floorplans and amenities. Introduce yourself to the Next Generation of Fifth Wheel...The ALPINE.

- 1 Glazed Grand Cherry with Hardwood Doors, Stiles and Fascia
- 2 Premium Sofa with Air Mattress
- 3 Huge LCD HDTV
- 4 True Surround Sound System
- 5 Name Brand DVD Player
- 6 Wood Window Cornice with Lambrequin Legs

Super Cinema PACKAGE

The Alpine's home theatre system is second to none. In an area where the competition is cutting corners, the Alpine features largest-in-class brand name 1080P LCD TV's, a 1000W brand name surround sound system with built in subwoofer, and a progressive-scan upscaling DVD player that electronically enhances the picture produced by DVD's. Its like having your very own theatre in the comfort of your own fifth wheel. So please... sit back, relax, and enjoy the movie!

ALPINE

WHISPER AIR SYSTEM

- The Whisper Air System combines
- Industry leading **High Performance Heat Pump**
 - **Comfort Control Center** for total climate programmability, and
 - The quiet efficiency of an innovative **Ducted Return System** that pulls return air from the entire coach, ...just like your home.

ALPINE

WALL CONSTRUCTION (R-10)

1. High Gloss fiberglass exterior walls, baggage doors, and entry door
2. Dual 1/8" luan backers with staggered seams
3. High density block foam insulation
4. Radius window corner blocks for additional integrity
5. 2" Welded aluminum sidewall studs
6. Fiberglass batten insulation
7. Molded fiberglass cap with 4mm coated graphics
8. Metal backing strips for added support
9. Cambered steel cap backing for increased turning radius - "Max Turn"

ROOF CONSTRUCTION (R-28)*

10. Aluminum radius roof corner molding wrap
11. One-piece EPDM roof with 12-year warranty
12. 3/8" Fully walkable roof decking
13. Thermo-Foil insulation
14. Fiberglass batten insulation
15. 1/8" Ceiling decking with vinyl protection

ZERO DEGREE RATED

With an impressive list of industry-leading construction advancements, Alpine sets the bar for four season living.

FLOOR CONSTRUCTION (R-40)*

16. Residential grade high density carpet with stain protection
17. Residential grade carpet padding
18. 6 layer "Bedrock" laminated floor system featuring: Darko wrap, wood backing, aluminum structure, high density block foam, and Astro-Foil insulation, thermo-insulation
19. Therma-Shield holding tank insulation featuring: One piece fluted polypropylene fully enclosed subfloor, fiberglass batten insulation, and ducted heat

TIRES AND CHASSIS

20. 12" steel "powder coated" steel I-beams
21. 16" E-Load radial tires
22. EZ-Lube 8 lug, 7,000lb axles
23. Suspension with steel shackles and greasable brass bushings

-4° OUTSIDE

ZERO DEGREE FROZEN COMPONENTS

- Seamless, one piece underbelly
- Enclosed and heated holding tanks
- Enclosed and heated dump valves
- “Therma-Shield 37” Tank Enclosure
- Tripled vented sub-floor heat ducts
- Astro-Foil underbelly insulation
- R-40 floor insulation
- High density, laminated sidewalls — R-10
- R-28 roof insulation
- “No Sweat” vented attic system
- Heated “waterworks” utility center
- Heated pass-thru storage
- Digital thermostat
- Heated and insulated water lines
- Enclosed low point drain shut-offs
- Fiberglass gooseneck shield

With an impressive list of industry-leading construction advancements, Alpine sets the bar for four season living. But don't just take our word for it — look at these official test results from a world leader in heating and cooling technology — Dometic Corporation. Subjected to below zero temperatures inside their legendary test chamber, the following temperatures were recorded inside an Alpine with the thermostat set at 74°;

Living room — 72° Bedroom — 70°
Bathroom — 75° Pass-Thru/Utility Center — 58°*

Of course, inside temperatures are only part of the story. With our industry leading “Therma-Shield 37” package, all the holding tanks and dump valves remained completely operational on our test unit with recorded temperatures consistently above 50° in these critical areas. Not everyone needs this kind of protection, but when four season comfort becomes important, make sure you demand the very best — **demand an Alpine!**

*Testing was done in a controlled independent environment.

ALPINE

1 The Alpine's Max Turn front cap features an aerodynamic design to give you the **best in class turning radius** and fuel economy. The Cap also features the Industry's most elaborate graphics package: 4mm thick coated front graphics with a multi-year peeling warranty. Hitching up becomes a breeze with the Alpine's 36" Hitch assist mirror and dual LCD docking lights.

2 One look at the Alpine's basement storage tells the story-- the Alpine boasts the industry's largest pass-through storage at **over 170 cubic feet!** You won't have to worry about your possessions sliding around that huge storage area, as we've used **non-skid rubber diamond plate** flooring and **metal D-rings** to secure them. As part of the Alpine's standard Thermashield tank and storage insulation, you'll be comforted knowing that there is **ducted heat** to the storage area as well.

3 The price point's largest and most durable frame features **12" powder coated steel frame rails** on all floorplans, as well as **7,000lb axles** equalized with the upgraded **Equa-Flex suspension** virtually eliminates damage from vibration caused by road bumps, holes, and cracks to give you a safe and comfortable towing experience. This system tested out significantly better than competing brands by Roush Racing, a third party testing company.

4 The **industry's largest entry door** — over 6'3" tall and 3' wide — is **safely illuminated** by the Alpine's interior and exterior automatic threshold lighting. When the door opens, the bright recessed lighting comes on! Floor level light switches just inside the entry door make it easy to flip on interior lights so you don't have to enter a dark coach.

5 The Alpine's special **motion detecting exterior porch light** is activated by an interior switch and will automatically illuminate your patio area as you exit the Alpine at night to get in your storage area or throw another log on the fire.

6 Entering the coach is a simple and safe as it gets. The Alpine's **keyless entry** keypad allows you to program your own unique lock and unlock code.

7 The Alpine's ground level **4-step entry steps** make for easy entry-- no giant first step to contend with as on competitive products with 3 steps.

8 The Alpine used premium fiberglass for a long lasting exterior finish. Unlike the competition, the Alpine doesn't just feature **high-gloss gel coat fiberglass** on its sidewall, but also on its class "A" style **slam baggage doors** and entry door. This will provide a beautiful even finish over the years.

9 The Alpine's **fully enclosed and heated "Water Works" compartment** houses your dump valves, low point drains, exterior shower, black tank flush hookup, quick winterization kit, city water hookups, and even an easy-to-fill soap dispenser!

Keystone's founders kept costs down by watching every penny and keeping overhead low. Building the best RV for the money was the goal and this simple principle became the driving force behind every decision made at Keystone RV.

In just 14 short years, Keystone has grown to be the largest towable manufacturer in the world. With 19 brands, state of the art production and service facilities, unmatched purchasing power, and the strongest emphasis on efficiencies and quality in the industry, Keystone is the industry standard in excellence.

By truly listening to our customers and empowering people who are closest to the customers to make product decisions, Keystone has become the leading innovator in our industry.

Each year, new innovations and improvements allow us to set the bar higher-- a bar the competition is left chasing.

These philosophies have not been lost as we have grown into the industry's #1 manufacturer, and these same principals were put into developing our new full profile fifth wheels, the Alpine & Avalanche. Innovation, quality, functionality, and aesthetics are woven into every fiber of the Alpine.

So, it is with great excitement and enthusiasm that we introduce to you our newest product, which we have aptly dubbed "The next generation of fifth wheel"... The Alpine.

Happy Camping,

Team Keystone

ATTENTION TO DETAIL

Extraordinary products are made by extraordinary people, and Keystone RV is proud to employ the finest in the industry. The majority of the Alpine team has been part of the Keystone RV family for many years — an All-Star cast if you will — bringing a great deal of experience and product knowledge to every Alpine that rolls off the line.

From our dealer partners and customers that provide a wealth of product feedback and suggestions to the product development team and craftsmen on the line, the entire Alpine team is dedicated to making our product the finest on the market — while maintaining our reputation as "The Next Generation of Fifth Wheel".

ALPINE

EXTERIOR FEATURES

MAX TURN HIGH-GLOSS FIBERGLASS FRONT CAP & REAR FEATURING:

- 30% better turning radius
- Aerodynamic design w/ 18% better drag efficiency
- Hitch Assist back up mirror w/ lights
- High Gloss exterior sidewalls, baggage doors, and entry door
- Class "A" style dual latch "slam" baggage doors
- Keyless Entry
- Easy open 4-step entry steps w/ recessed rope lighting for visibility

PURCHASING YOUR RV LOCALLY

It's up to you where you purchase your new Alpine, but may we suggest your local dealer? Not only does it help your local economy and provide jobs, but it will also give you an opportunity to develop a service relationship with someone that will come to know you and your coach. Congratulations on finding the best built, best equipped, best value in the industry, and happy travels!
