WHAT IS BULLET?

The Bullet is a full-featured ultra lite travel trailer designed to be towed by the new fuel-efficient SUVs, crossover vehicles and ½-ton pick-up trucks.

www.keystonerv-bullet.com

CONVENIENCE, COMFORT AND STYLE

While other ultra lite trailers cut corners to save weight, with Bullet you enjoy ultra lite towing without sacrificing features and eye appeal. For example, Bullet's sleek aerodynamic front profile, wide-stance axle system, and contoured fender skirts create a trailer that tows with ease and looks great. Front diamond-plate rockguard, LED docking lights, radius crowned roof, lighted pass-thru storage, gas-strut entrance door assist, raised solid wood cabinet doors and electric awning are more features you'll find in the Bullet that you won't see on other ultra lites.

Bullet's attention to detail doesn't stop with the exterior. Inside Bullet you'll appreciate the plush, high back sofa, upgraded fabrics, window night shades, solid hardwood raised-panel cabinet doors, 9" single basin kitchen sink, and comfortable queen-sized bed with innerspring mattress. You will truly feel at home. Bullet's careful attention to detail and thoughtful use of space result in the most livable ultra lite on the market today.

The **plush interior** of the 284RLS is sure to help you relax. Take a seat in the large pillow backed swivel chairs and gaze outside the huge rear window. Bullet is the only travel trailer in its class to offer an air bed sofa sleeper, which is much more comfortable than a thin foam pad!

2

The **bunkroom** of the 286QBS provides plenty of sleeping options for either kids or adults. Functional closet provides a convenient area for clothes and toys.

3

Redesigned galley slideout provides more floor space with functional kitchen countertop space and an abundance of storage.

4

Enjoy the amenities of an **outdoor kitchen** without having to pull all of the weight of a traditionally built travel trailer. The 286QBS weighs in at approximately 5250 lbs.!

EXTERIOR FEATURES

Largest **pass-thru storage** in its class. 40.3 cubic ft. of storage provides an abundance of space for all of your camping gear.

Jalousie windows allow you to keep the windows open for air flow, even when it's raining.

Electric awning with adjustable arms makes it easy to extend/retract the awning as well as adjust the ends for water run-off.

Gas struts eliminate the concerns of replacing brittle plastic door catches.

Wide stance axles provide a better towing experience by reducing bounce and sway during travel.

Exterior shower comes equipped with a fixed shower head and access to both hot and cold water.
