LEADING THE WAY FROM DAY ONE...

Making West Coast needs through West Coast production

Cougar's Enclosed Heated Underbelly

With its streamlined profile, radius corners, and enclosed underbelly, Cougar's aerodynamic exterior design substantially reduces air turbulence, increasing stability and mileage during travel.

WEST COAST PRODUCTION

Cougar has strategically produced travel trailers and fifth wheels out west in Oregon, which means high quality 1/2 Ton Series are built specifically for west coast customers by west coast production workers.

**BIKE/STORAGE RACK & HARDWOOD
CHERRY CABINET DOORS**

At Cougar we are always trying to think of new ways to add value. With the new hand glazed maple cabinetry, there is a rich elegant appeal. Cougar also uses teflon spacer balls in all of our cabinet doors to prevent warping, bending and cracking.

**PATENTED
HITCH
VISION
"NO LOOKING
BACK"**

HITCH VISION DOCKING LIGHTS

Hitch Vision gives the fifth wheel user complete confidence to back up and align their truck to Cougar's extended hitch pin using only the built-in mirror for guidance. Dual automotive LED docking lights, which can be controlled by the E-Z Camp Cougar Remote, allow you to load or unload camping gear day or night.
