Cougar Xlite Fifth Wheels

CONTROL EVERYTHING WITH THE COUGAR E-Z CAMP REMOTE

MAX TURN

Combining focused design and unique product specifications, Max Turn Technology is the leader in optimum turn radius:

Unlike the competition, Cougar uses continuous contoured tubular steel for optimum strength and support behind the engineered tapered fiberglass front cap.

Also, Cougar is equipped with a heavy duty extended hitch. Combined - Max Turn Technology makes turning and maneuvering a breeze.

COUGAR HITCH VISION

Hitch Vision moves the dial forward in what customers expect from an RV. There's no looking back!

Hitch Vision gives the fifth wheel user complete confidence to back up and align their truck to Cougar's extended hitch pin using only the built-in mirror for guidance. Automotive LED docking lights, which can be controlled by the E-Z Camp Cougar Remote, allow you to load or unload camping gear day or night. (Hitch Vision also comes in handy when using the E-Z Camp Cougar Remote to raise and lower landing gear.)

Once you've used Hitch Vision, "there's no looking back" to the inconvenience of turning or straining to see your fifth wheel.
