TIFFIN MOTORHOMES

2014

TIFFIN
MOTORHOMES

AMERICA'S FAVORITE MOTOR HOME BUILDER

MADE TO MOVE YOU.

ALLEGRO BREEZE 2014

The most compact Class A diesel-pusher motor home ever produced.

INNOVATION, MORE THAN ANYTHING, IS WHAT SETS TIFFIN MOTORHOMES APART FROM OTHER RV MANUFACTURERS.

For proof, look no further than the 2014 Tiffin Allegro Breeze — the smallest, lightest, easiest handling, highest mileage Class A rear engine diesel coach on the road today. Truly a breath of fresh air for RV customers, the Breeze isn't just a new model for Tiffin. It's a new approach to motor home design, one destined to shape the future of the industry. *RV Magazine* calls it "the sports car of Class A motor homes" with maneuverability that is "nothing short of amazing." Now, it's time to see what you think.

COCKPIT

Finally, a motor home for people who don't want to drive a motor home.

With a command of the road more comparable to a full-sized SUV than a full-sized RV, the Breeze is truly fun to drive. Wonderfully maneuverable, able to take sharp corners with ease, and simple to park, its low profile and narrower width fit neatly under tree branches and between the lines on any roadway. Combined with a shorter length, either an agile 28' or a compact 32', it goes places other RV models can only dream about, which is why many Breeze owners leave their cars at home.

TIFFIN INNOVATION: PRECISIONTRACK™

Engineered from the ground up in Red Bay, the Breeze is built on Tiffin's acclaimed PowerGlide® chassis, custom constructed for a short rear engine diesel and to integrate closely with the vehicle body. In the 2014 model, for more effortless steering and smoother handling, the coach is now equipped with Tiffin's unique PrecisionTrack™ technology, a marriage between a responsive independent front suspension and a supple air ride system. PrecisionTrack™ enables the coach to ride on a cushion of air provided by four adjustable air bags while simultaneously generating a gripping response on the road for more reassuring stability when cornering and maneuvering. It's truly the best of both worlds for driver and passengers alike.

PERFORMANCE

Powering the coach's nimble and peppy ride is an assertive Navistar MaxxForce®7 engine, with a towing capacity of up to 4,500 lb. Tiffin added a new engine performance package in the 2014 model to kick performance up a notch, boosting horsepower to 240 @ 2,600 RPM and torque to 620 @ 1,400. Drivers will also appreciate the Breeze's responsive braking system.

COMMAND

The Breeze builds a driver's confidence with its intuitive, easily understood dash and tailored-to-size cockpit, featuring adjustable seating, steering, gas, and brake pedal positions. Enjoy an unobstructed view of the road ahead through the one-piece shatter resistant windshield, made from premium safety glass. Side and rear cameras display color images of traffic three lanes over and a panoramic view of scenery in back.

FLOOR PLANS

Tiffin offers full-sized livability in even the smallest dimensions.

Tiffin's ongoing collaboration with customers is evident in our floor plans. Each is conceived to address specific needs of the RV lifestyle, with thoughtful details to make life on the road as comfortable as possible. Once you've decided on the right layout, customize your home with fabric and interior décor options. As always, all floor plans come with Tiffin's Store-It-All™ Assurance.

TIFFIN INNOVATION: EXTRAORDINAIRE™ AC SYSTEM

The interior ambiance in your Tiffin coach is enhanced by a state-of-the-art heating and cooling method, developed by Tiffin engineers for exclusive use in our luxury coaches. Modeled on residential-style systems, it uses adjustable registers and return vents placed the length of the ceiling to keep the airflow moving in a circular pattern to maintain your desired interior temperature. Whisper quiet and incredibly efficient, it easily lives up to its name — Extraordinaire.

INTERIOR DÉCOR

Built to the same interior luxury standards as our higher end models, the 2014 Allegro Breeze offers a refined backdrop for your personal décor. Woodwork throughout the coach is meticulously carved by hand from solid unblemished hardwood by Red Bay master craftsmen. Cabinets, drawers, doors, and face framings are finished in your choice of Medium Alderwood, English Chestnut, and a Breeze exclusive, Ivory Cream. To complement your style, choose from three versatile fabric suites, Bahamas, River Rock, and Sahara. Designed in neutral tones, all are treated to resist stains for longer lasting good looks.

LIVING AREAS

A shorter coach, yes. Short on luxury, never.

Compact and comfortable come together harmoniously inside the Breeze. Airy and bright, these luxurious interiors deliver exactly what you'd expect from Tiffin: The refined elegance, as seen in the custom cabinetry and designer fabrics. The innovative practicality, from energy-efficient LED lighting to wall-to-wall tile flooring. And the impressive spatial engineering that creates more living space with fewer slides, one in the 28' and two in the 32', making the coach feel far roomier than its dimensions.

DESIGN

There's a gracefulness to life in the Breeze. Interior quarters convey a sense of intimate spaciousness. Guests on the U-shaped dinette or sofa can comfortably lounge while easily conversing with the cockpit crew. When parked, captain's chairs swivel to join the living area. For fresh air entertaining, an automatic awning unfurls to create a shaded patio area on the passenger side, an idyllic location to enjoy an optional exterior TV.

DÉCOR

The hallmark of every Tiffin coach is the multitude of built-in cabinetry, providing far more storage than in similar sized coaches from other motor home manufacturers. Built by the same master craftsmen to the same high standards as our other coaches, cabinets are solid hardwood, as are doors, drawers, and framings and can be customized in your choice of stains, Medium Alderwood, English Chestnut, or Ivory Cream, exclusive to the Breeze.

TIFFIN INNOVATION: SMARTSLIDES™ SEAMLESS SLIDE-OUTS

Built to endure high and low temperature extremes, the Breeze is also air- and watertight, qualities you'll appreciate on blustery rainy nights. RV leaks are often caused by splits in the seams of the roof or slide-outs. Not a chance in the Breeze, thanks to a Tiffin innovation: Seamless fiberglass construction. Already in use on our roof design, we're now using it in our SmartSlides™, slide-outs made from one solid piece of molded fiberglass. No seams means no leaks. And no need to worry about the weather outside when you're warm and dry inside.

KITCHEN

Welcome to a roadside diner that is always open.

Traveling in an RV is meant to be relaxing, and the Breeze's smart kitchen galley ensures meal preparation is never a chore. Storage, always a Tiffin strength, is on fine display, as this compact coach offers more cabinets and drawers than many larger models. Pantry drawers slide completely open; cabinets' shelves adjust for better use of space; and an inventive vertical rack slides out to organize spices and canned goods. From top to bottom, you'll have the space to bring along the equipment you need, along with plenty of supplies to nurture creativity in meal planning.

KITCHEN HELPERS

Beautiful functionality is the order of the day in this kitchen, from the 8 cubic-foot wood-paneled double-door refrigerator with optional icemaker to the commercial-grade solid surface countertops and backsplash. For more prep space, counter extensions fit neatly over the two-burner cooktop and sink. Insulated to retain heat, the double bowl stainless steel sink features a gooseneck faucet to fill deep pots with ease.

HOUSEHOLD MAINTENANCE

Leave housework behind with handy features that simplify cleanup. Vinyl tile floors throughout are as easy on the eyes as they are to maintain, especially with the optional Dirt Devil® central vacuum system with dustpan trap door. Solid-surface countertops resist scratches for lasting attractiveness. And fabrics throughout the coach are treated for stain resistance.

TIFFIN STORE-IT-ALL™ ASSURANCE

Rest assured, this Tiffin coach will surpass a competitor's model of equivalent size in the quantity and quality of storage.

BEDROOM/BATH

The only thing missing from this deluxe suite is the turn down service.

The joy of an RV is that no matter where you go, you're always at home. And at the end of the day, that means happily home in your own bed. The Breeze tucks you comfortably in a Memory Foam queen mattress by Jamison, a brand preferred by high-end hotels. You'll appreciate other four-star touches, too, like a cottage-style headboard, dual wardrobes with banks of drawers, and an optional HD TV housed discreetly in the ceiling. With room darkening window shades and a sound-muffling privacy door, rest assured, this is one room where you won't be disturbed.

SLEEPING

The living area of the Breeze pulls double-duty. By day, family headquarters. By night, your second bedroom, bringing sleeping capacity up to six. On the driver side, a sleeper sofa unfolds into a comfortable double bed. Across the room, the built-in dinette booth reveals a few tricks, too, converting into a cozy sleeping nook with the addition of an extra cushion housed in a drawer under the seating area. This secret storage place is also perfect for stowing rarely used items.

BATHING

For the design of the Breeze, Tiffin's engineers didn't try to shrink the interiors of a larger model into a smaller coach. Instead, they began anew, customizing features for the dimensions at hand. Among their space-stretching conveniences is the split bath, consisting of a roomy one-piece fiberglass shower stall across from a separate room for the vanity, water closet, and medicine cabinet. Each room has its own door, and for complete privacy, the entire bath area can be blocked from the rest of the coach by two additional sliding doors. Another useful addition, sure to come in handy at the beach, is a pullout outside shower located on the driver side.

WARRANTY

You won't find a better warranty because you won't find a better-built coach.

The Tiffin Five-Star Warranty.
The best in the business, bar none.

At Tiffin Motorhomes, we build for quality first and foremost, limiting our production to just 12 coaches a day to ensure meticulous craftsmanship. It may not be the most business-savvy way to run a company but it is the best way. By investing the time and effort to do things right, we want you, as a Tiffin owner, to have the utmost confidence in your coach, as well as a peace of mind you won't find with other manufacturers. You see, not only do we stand proudly behind our product, we stand behind you as well.

★ 10

We build our coaches to the highest standards: Yours.

Tiffin Motorhomes never set out to become the largest Class A manufacturer in the country. Our goal was to build the kind of motor home that we — a family who loves the RV lifestyle — would want to own, a coach with advanced engineering, the most durable parts, the finest materials. A motor home that makes each and every road trip feel like a vacation — relaxed and fun.

From the start, we consulted the experts, the people who put motor homes to the test — our kindred spirits, fellow RV owners. Today, more than four decades later, this ongoing collaboration is at the heart of our success.

Listening to what our customers want is the reason Tiffin leads the industry in innovations. Offers more floor plans than anyone else. More storage. The industry's best warranty. It's why RV dealers consistently give us their highest rankings for quality, design, reliability, and value. It's why, among more than 50 Class A models on the market, our coaches are consistently among the top sellers. And it's why we've earned the highest owner loyalty rating in the industry.

Any motor home can get you from here to there. The feeling you get as you enjoy every carefree mile in between is why you buy a Tiffin.

MADE TO MOVE YOU.
