

# Sightseer

**WINNEBAGO**

## **Why Sightseer?**

- Powered patio awning with LED lighting and metal wrap
- Corian® galley countertops, sink covers, and decorative backplash
- Available exterior entertainment center
- Motoraid supplemental hot water and heating system
- AM/FM/touch screen radio with CD/DVD player
- Automatic hydraulic leveling jacks with 3-position controls
- One-piece fiberglass roof
- Versa easy-swivel driver's seat
- Available powered StudioLoft™ bed
- Residential refrigerator with icemaker (36Z)
- Dash workstation with USB cable connection

On the Cover: 33C Ember Full-Body Paint

33C Grayson with Coffee-Glazed Vienna Maple Cabinetry

## See it All

There's a lot to love about the Winnebago Sightseer®, starting with its quality Winnebago construction and thoughtfully-selected upscale features such as Corian® galley countertops, Versa easy-swivel driver's seat, and MCD solar/blackout roller shades. The new, triple-slideout 36Z features a master and a guest bathroom, a retractable HDTV, and the available powered StudioLoft™ to quickly

expand your sleeping space. The 33C and 35G also feature triple-slideout designs and come with a variety of options such as the Rest Easy® sofa (NA 35G), a Euro recliner, a king bed, and a washer/dryer so you can customize the coach to your preference. If you have your sights set on daytime adventures and relaxing evenings, don't miss the Winnebago Sightseer.

### Recognized Quality

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.

33C Grayson with Coffee-Glazed Vienna Maple Cabinetry

The Sightseer takes relaxation seriously, offering a wide range of furniture options fashioned in soft Primera® fabric. The innovative Glide & Dine dining table in the 33C slides side-to-side to accommodate a variety of activities. The inLounge™ in the 35G steals the show with its ability to extend to add seating for guests and function as an elegant dining area with the movable inTable™. Other seating options include the Rest Easy® sofa (NA 35G), a Euro recliner, and swivel cab seats, which can be positioned to face the large HDTV. At the end of the day, the available StudioLoft™ bed lowers from the ceiling at the press of a button, providing an instant sleeping space for you or your guests.

33C Bathroom

Dash

Even the longest days on the road fly by when you're seated in the 6-way power adjustable driver's seat with Primera covering. It swivels, along with the passenger seat, to be used as a lounge chair when you reach your destination. The innovative dash stereo system allows you to play music directly from your phone. It has a 6-inch color touch screen that doubles as your rearview monitor.

Radio with Available SiriusXM

Dash Workstation

MCD Solar/Blackout Powered Front Shade

Night or day, the Sightseer enhances your time outdoors with a powered patio awning with LED lighting and an available exterior entertainment center with an HDTV. Convenient features such as single-paddle compartment door latches and 3-position hydraulic leveling controls get you set up at the campsite in no time.

## Fiberglass Roof

The crowned, one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

## Rubber Can't Cut It

Rubber roofs used by competitors can streak and degrade over time.

## Thermo-Panel® Sidewalls

By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry's strongest, most durable and lightweight sidewalls.

**E-Coating** An electrodeposition coating helps protect critical steel components.

**Embedded Steel** Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

**Solid Framework** Aluminum extruded in our own facility to our exacting standards creates an extremely strong and solid structural framework.

## Laser-Cut Tubing

Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

## Interlocking Joints

Specially engineered interlocking joints connect the floor, sidewalls and roof where competitors often rely on simple screws to bear the weight.

# SUPER STRUCTURE

BUILT TO LAST

Every coach—from our smallest Class C to our largest diesel-pusher model—is built to Winnebago's® legendary SuperStructure® construction design. It's a process developed and refined over more than 50 years of building some of the strongest, most durable coaches in the industry.

**TESTING** Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

**DETAILS** At Winnebago, we treat the features you can't see with the same care as the ones you can. Look in the access panels of some of our competitors' coaches and you'll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

**BUILT IN-HOUSE** We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

**SUPER  
STRUCTURE**  
BUILT TO LAST

36-month/36,000-mile limited warranty on structure<sup>9</sup>

10-year limited parts-and-labor warranty on roof skin<sup>9</sup>

### FOOTNOTES

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- Floorplans feature a wide-body design - over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (WC). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice.
