SENECA™

MAKING THE JOURNEY A JOY

In the 2017 Jayco Seneca, you'll be there before you know it. Power, stability and several extra steps we take to enhance the ride may even have you wishing your destination was a couple more miles down the road. Once you're there, high-tech features and residential amenities make for an experience to remember.

RIDE AND HANDLING. DEFINED.

JRide is a powerful blend of precise handling and renowned stability. Hands down, it's the best ride.

Experience JRide for yourself—visit your local dealer and take a test drive.

REAR AIR SUSPENSION

Improves stability under heavy loads

HEAVY-DUTY FRONT STABILIZER BAR

Reduces the body roll of a vehicle during fast cornering or over road irregularities

60-MILLIMETER BILSTEIN SHOCKS

Feature a unique monotube gas-pressure design that provides optimum ride quality and vehicle control: Bilstein shock absorbers last 2-3 times longer than the conventional twin-tube piston and are found in many high-end luxury vehicles

FULL AIR BRAKES

Offer peace of mind—even on the steepest inclines

FEATURED FLOORPLAN: 37HJ

Gross Vehicle Weight Rating (GVWR): The maximum permissible weight of the motorhome, including the Unloaded Vehicle Weight (UVW) plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the Cargo Carrying Capacity.

Gross Combined Weight Rating (GCWR): The maximum allowable combined weight of the motorhome used as a tow vehicle and the attached towed vehicle.

It is important for your safety and enjoyment that you are aware of the weights and tow ratings of the RV you select. Consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. Refer to that label to verify the vehicle will meet your requirements.
