

IN-COMMAND CONTROL SYSTEMS Relax. You're IN-Command

Monitor and Control Functions

The iN-Command™ system gives you total control over your Keystone RV's functions and features like never before.

- Turn on and off the water pump and water heater. This system enables you to select between electric or propane fuel sources, or both.
- (B) Turn on and off exterior lights.
- © Turn on and off awning lights.
- D Turn on and off interior lights.
- E Turn on and off security lights.
- Control customized lighting zones such as main, dinette, mood, and night lights; even "all on, all off".
- Extend and retract slide rooms.
- (H) Extend and retract patio awnings.
- Monitor status of your fresh, gray and black water holding tanks.
- Check your battery status.
- Prime, start, and stop the on board generator with the tap of an icon. iN-Command not only lets you control your generator, but also keeps you informed of its running status by showing you the fuel tank level, voltage, running hours, and any diagnostic issues such as low oil, over crank, and service warnings. These advanced generator diagnostic features are an industry-first and can only be found using the iN-Command systems.
- (L) Monitor the auxiliary and generator fuel tank levels.
- M Rename your slide-rooms and lighting groups to any name you choose to make it easy to remember.

"WORKS WITH PHONE, PAD, EROID PHONES AND TABLETS.

> Download and Install the Free JENSEN* IN-Command** App from Google Play or Apple App Store for the ultimate in control.

FINALLY A SYSTEM YOU CAN TRUST.

iN-Command™ by JENSEN® embraces the next generation of controls for your Keystone RV by acting as the central hub of operations and puts you at the helm using your preferred smart device. But how does this all-encompassing system work? What, exactly, does it monitor and control? Let's take a closer look at iN-Command piece by piece.

The Display Commander is your primary point of contact with iN-Command. All of the switches and monitoring panels that have cluttered up interior walls in the past are integrated into this one sleek, touch screen monitor. What really makes the Display Commander stand out, however, is that it can be controlled remotely with a smart device using the free JENSEN iN-Command mobile app. This app performs all of the same functions as the Display Commander, but from the convenience of your mobile device.

Body Control Module

At the core of iN-Command™ is the control board, or "brain" of the system, the Body Control Module. The main board, itself, is protected by an impact resistant cover. The inside of this cover features detailed connection labeling, along with the wiring guide.

High Current Relays

The Body Control Module uses automotive standard high current relays to perform many of the required functions of the system. Though unlikely, these relays can easily be replaced and swapped out if needed. To ensure you can always operate the mechanical components of your coach, we've integrated manual overrides directly on the Body Control Module.

Safety First

Once your tow vehicle is connected to your RV through the 7-way (Bargman) cord, step on the brake pedal and the lockout is automatically engaged. This patent-pending lockout can only be dismissed from inside your RV using the Display Commander. For safety reasons, while the lockout mode is engaged the mobile app cannot be used for motorized controls. You can still access non-motorized functions such as lighting and monitoring.

For added security, we have also integrated Pass Code protection into the system to prevent unintended and unauthorized use.

DISCLAIMER: Do not operate any moving parts (including but not limited to awnings, jacks, and slides) unless you have a clear line of sight to the moving parts.

JENSEN J-CONTROL SYSTEM

JENSEN* now offers app control technology with the jControl app. Control these primary functions of the JWM9A entertainment system directly from any Bluetooth-enabled mobile device:

- Power
- Volume and mute
- · Radio station selection. recall, & store
- CD/DVD player control
- Bluetooth streaming audio
- Source selection

- Smartphone charging and control via USB
- Speaker zone selection (A/B/C)
- Audio menu: bass, treble, balance, fader and equalizer
- · Displays music track, artist and title info
- · Clock, alarm and sleep timer

Feature functions may vary based on device operating system and version.

iControl

Available for both:

JWM9A

Sleek, 12 volt, home theater-style source unit with all-digital connectivity, including Apple' MFI connectivity (iPhone'/iPod'/ iPad"), also features multi-preset AM/FM tuner, selectable line audio output, digital audio input and remote control. Dimensions: 17"W x 3.5"H x 7.4"D

jCOM interface simplifies A/V operations via a single HDMI cable. Simply inserting a DVD automatically powers on both the stereo and JENSEN* TV and changes them to DVD source and HDMI input. One motion and the movie is ready, eliminating the need for multiple remote controls and input selections.

ARC (Audio Return Channel) allows the audio from broadcast TV channels to be digitally returned via a single HDMI cable through the stereo system speakers. Benefits include

Android smart devices, ARC can be disabled to allow for simultaneous use of the TV and stereo.

CONSTRUCTION //// KEY FEATURES

EXCLUSIVE KEY-SHIELD PAINT TECHNOLOGY

Fuzion front cap is painted with our Exclusive Key-Shield paint technology.

EXTREME TESTING

At Fuzion we test all new models to make sure they are going to perform in any condition.

EXCLUSIVE FUZION SUPER STORAGE

Fuzion is the only toy hauler that keeps your belongings in mind with the Fuzion Super Storage. The Super Storage capitalizes on space like never seen before.

EXCLUSIVE FUZION SECU

Fuzion's innovative Secure Step effectively protecting your R\ and raise, offering quick ar Step is connected to the your campsite. This o their home away fr

6 POINT HYDRAULIC AUTO LEVELING SYSTEM

This system has the strength to lift 60,000 lb. off the ground-need to change a tire? No problem! Most importantly though, is the ease of use. One touch and the coach levels itself.

It also remembers the point at which you unhook from the truck so when it comes time to hitch back up-press a button and you are back at that height! Other brands use an electric system which is slower, weaker, and you have to pull the pins on all 6 legs to get them to drop!

FUZION LUXURY TOY HAULER EXCLUSIVES

FUZION BLIZZARD PACKAGE

Fuzion's Blizzard Package offers the best in the industry when it comes to high tech insulation. Don't be fooled by advertisements which claim "Tested to Zero Degrees". Ever ask them if it passed or failed?

R-31 RADIANT FOIL TECHNOLOGY (RFT)

This insulation is used in the floor, wrapped around all of the holding tanks, used in the ceiling and wrapped around the front of the unit under the cap and in the goose-neck floor resulting in an R-factor of 24 under the bedroom.

HEAT PADS FOR HOLDING TANKS

You will not have to resort to running your furnace to keep your tanks warm from the elements, our holding tank heat pads are specifically designed for your Fuzion holding tanks.

DUCTED GARAGE HEATING

To enhance the RFT's ability to maintain temperatures, we duct heat into the garage and the pass through compartment. This process exceeds most of the competition who claim the compartments are heated while it is only a heat duct passing through without a register delivering hot air!

VENTED ATTIC

Fuzion also installs two attic vents helping to eliminate the possibility of condensation build up in the roof insulation.

EXCLUSIVE FUZION ADJUST-A-TRACK FRAME WELDED TIE DOWN SYSTEM

Fuzion's Adjust-A-Track is the most rugged, toughest tie-down you can find in any toy hauler. Welded into the frame, each tie down can support 5000 pounds. Because your toys are important, be sure your new toy hauler is a Fuzion with the Adjust-A-Track.

s store inside the RV entrance, offering a sleeker look to the exterior and more I steps from the rigors of the road. Its lightweight design makes it easy to lower Id simple set up. Unlike the traditional, flimsy "springboard" RV steps, the Secure RV but features adjustable legs and feet, to compensate for uneven terrain at ffers RVers the most secure and stable footing possible as they enter and exit om home.

FUZION FAST TRACK PATIO SYSTEM 2.0

Fuzion's exclusive Fast Track Patio System makes it easy to set up your toy hauler patio in under 1 minute. Because the patio rails are not attached to the ramp, the door is lighter and easier to open and close. Plus, unloading your toys is now so simple.

By not attaching the patio to the ramp door, this makes the ramp door approximately 60 pounds lighter and much easier to open and close than the patios with the old fashioned systems.

The lightweight skid-resistant steps attach to the patio in just seconds. They are formed from aluminum and include a collapsible grab handle for extra security.

PURCHASING YOUR RV LOCALLY

It's up to you where you purchase your new Fuzion, but may we suggest your local dealer? Not only does it help your local economy and provide jobs, but it will also give you an opportunity to develop a service relationship with someone that will come to know you and your coach. Congratulations on finding the best built, best equipped and best value in the industry. Happy travels!
