Apex Is Certified Green TRA Gold Level Rated.

As a Certified Green RV, APEX utilizes effective production techniques in combination with healthy materials, plus efficient usage of energy and water to produce a high quality RV with less environmental impact.

Magnetic Door Closures (Elite Package)

- Holds door up and out of the way while accessing storage

Apex Is Constructed With Azdel Vacuum Bonded Composite Panels.

AZDEL is 50% lighter than wood, increases insulation value, and won't rot, mold or sustain water damage for years of trouble free camping.

Perfect for Smaller Tow Vehicles

Coachmen Interactive Mobile Manuals

Download your Coachmen mobile app or visit our dynamic online manual to enhance your ownership experience.

These interactive options provide incredible

ease and insight into use, maintenance and enjoyment of your Coachmen product. Ranging from "How-To" videos, pictures and illustrations of various components, systems and features to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away.

Travel Easy™ Roadside Assistance

RVing is easier with Coachmen's Travel Easy™ Roadside Assistance provided FREE the first year of ownership to those who purchase a New Coachmen RV.

Administered by Coach-Net, this service provides you with 24/7 operational, technical and emergency road service coverage. Also included is towing, fuel delivery, jump starts, lockout service, tire changes, mobile mechanic and unlimited technical assistance. Anywhere. Anytime. Travel Easy™ is the security of knowing that help is an easy phone call away.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW.

Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

**Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
