INTRODUCING . . . BEAST MODE!

No Boundaries is proud to be one of the first RV lines to offer the **CURT Beast Mode Suspension** to consumers. Beast Mode is available on all 2023 models.

This incredible new system takes your camping experience to a whole new level providing unmatched stability in both paved and un-paved travel situations, and delivers more freedom to travel on your own terms than ever before.

The nitrogen-filled shocks, along with the racing-inspired coil springs, deliver a towing experience like nothing else currently in today's market.

"These improvements are tailor-made for No Boundaries owners, who want the ability to tow with a V6 SUV, while carrying gear like bikes and kayaks, to take their NOBO where they can find solitude and adventure—which often means leaving paved pathways."

Cody Schade, No Boundaries product manager

BEAST MODE GIVES YOU:

- Nitrogen-filled gas struts
- Racing-inspired coil spring design
- 5" of articulation on all floorplans
- Individual strut/coils for each wheel
- Axle-less design that provides true independent suspension on smooth or rough terrain
- Springs with bump stops to prevent bottoming out
- Increased ground clearance
- Dramatically reduced rattle and vibration and increased towability

"Our NoBo at the Ozark National Forest on New Years Eve!
No better way to start the new year than camping in our NoBo."

No Boundaries Owner - *Kharizza Lillian*

Photo by NoBo Owner *Garrett Forster*

"Love this trailer. Everything you could want out of 16ft! Perfect setup for boondocking. Always getting asked questions anywhere we go."

No Boundaries Owner - *Troy Holding*

Download our Forest River mobile app or visit our dynamic online manual to enhance your ownership experience. These interactive options provide incredible ease and insight into use, maintenance and enjoyment of your Forest River product.

Ranging from "How-To" videos, pictures and illustrations of various components, systems and features, to fully searchable content and downloadable PDFs for individual component owner's manuals, answers are always just a click away. View the online manual at www.forestriverinc.com/OnlineManual or download our FREE app from the App Store or Google Play!

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty black and gray tanks for more cargo capacity.

*Estimated Average based on standard build optional equipment. ** Estimated average based on standard build optional equipment. Values estimated at time of printing.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
