| 2023MY Preliminary

New Standard Features

Multiplex wiring control system

Murphy Bed, Corner Bed, FX, Twin Bed

The Multiplex wiring control system makes monitoring and controlling the RV's various electrical components simple, no matter where you are in the RV. Stay informed of battery and tank levels, adjust lighting and climate control settings, and turn the water pump on and off from the central 7" touchscreen, or with additional backlit touch panels throughout the RV for convenient access at all times. For even more convenience, the system can also be controlled with a mobile app using Bluetooth.

LED ceiling light panels with dimmer

Murphy Bed, Corner Bed, FX, Twin Bed

The ceiling panels provide soft, diffused lighting, as well as hide and integrate ceiling components for a modern look. An abundance of accent lighting allows the user to create a multitude of atmospheres, from extra bright to cozy, mood lighting.

Coach-to-cab floor extension

Murphy Bed, Corner Bed, FX, Twin Bed

By extending the surface of the coach, the step down into the cab has been removed to create a level living surface throughout the entire motorhome. This new look increases the usable floor space and is easier to clean.

Unity Corner Bed shown with White Oak cabinetry, Antarctica countertops, and Sand upholstery.

2023 UPDATES

New Standard Features

LED ceiling light panels with dimmer

Rear Twin Bed, Front Twin Bed

The ceiling panels provide an abundance of soft, diffused lighting and a modern look. Accent lighting allows the user to create a multitude of atmospheres, from extra bright to cozy, mood lighting.

Coach-to-cab floor extension

Rear Twin Bed, Front Twin Bed

By extending the surface of the coach, the step down into the cab has been removed to create a level living surface throughout the entire motorhome. This new look increases the usable floor space and is easier to clean.

Relocated entry door with additional passenger-side window

Rear Twin Bed

The improved location of the entry door opens up the dinette area, making meal times more comfortable and roomy. The additional window adds more natural light and provides a more expansive view of the outdoors.

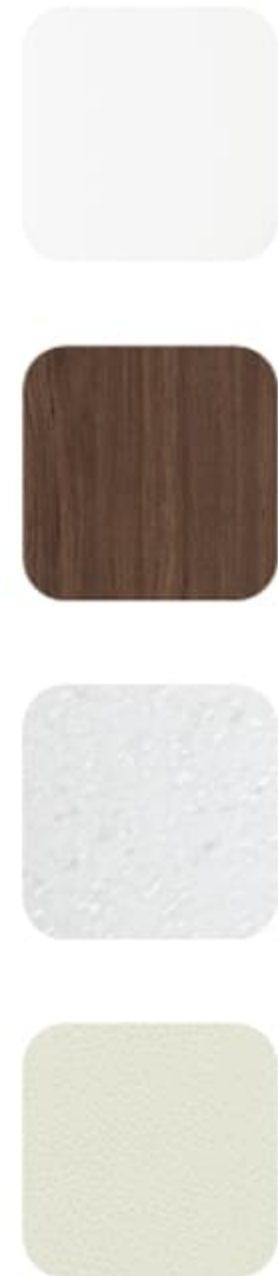

Wonder Rear Lounge shown with White Oak cabinetry, Concrete countertops, and Clay upholstery.
