WINNEBAGO

HIKE 2000

HIKE
200 SERIES

Adventure Begins Where the Pavement Ends.

The easy-towing HIKE 200 was created for those who wander far from the crowd, combining off-road ruggedness and serious gear-hauling capability with off-grid, extended-season comfort and spacious interiors that sleep up to six.

Adventure Begins Where the Pavement Ends.

The easy-towing HIKE 200 was created for those who wander far from the crowd, combining off-road ruggedness and serious gear-hauling capability with off-grid, extended-season comfort and spacious interiors that sleep up to six.

Built for Places Where Every Detail Matters.

Easy Does It

With its 5,000-lb. dry weight well-balanced on dual axles, the HIKE 200 can be towed by a wide range of vehicles.

Rugged Roamer

The HIKE 200 is engineered for adventure, with a powder-coated frame and large 15" Goodyear® off-road tires on dual axles.

Haul it All

Our patented exoskeleton accepts Thule® and Yakima® accessories, so it's easy to carry larger toys, and the 2-inch receiver is the perfect place to park a bike rack.

Instant Addition

Each of the four floorplans features an off-camp side slideout in the galley, adding space and livability to the fully equipped interior.

Outdoor Living it Up

The HIKE 200's full suite of outdoor living amenities includes a powered patio awning, LED lighting, and a pullout cooktop on select floorplans.

Floorplan Shown: 2225BH

A Mobile Retreat with All the Comforts of Home.

Dine In

Family meals are a pleasure, thanks to the well-equipped galley with standard dinette or U-shaped dinette. The galley includes a 3-burner cooktop, convection microwave, dual bowl stainless steel sink, and innovative storage throughout to ensure you have space for everything you need.

Rest Up

Plenty of interior storage, full-height ceilings and large, comfortable sleeping accommodations welcome you home at the end of the day, and help make sure you're rested and ready for the next day's adventures.

Clean Up

Each HIKE 200 floorplan includes a dry bath with a full shower, sink with vanity, medicine cabinet, and under-sink storage. The larger holding tanks mean you can spend more time off-the-grid and away from hookups.

Keep Rolling.

Let the Good Times
Keep Rolling.

Built for the Long Haul

The HIKE 200 is built on a strong, durable, powder-coated frame with integrated lower nerf bars and an integrated 2" accessory receiver. Power stabilization jacks and a power tongue jack come standard on every Winnebago travel trailer.

Engineered to Extend Your Season

The 2" thick fiberglass sidewalls with Azdel Onboard® composite paneling, one-piece fiberglass roof with thermofoil insulation, and fully enclosed underbelly with large holding tanks and 12-volt tank pad heaters with interior switch help keep you cool in the summer and warm during extended season stays.

Standard Solar

To increase your off-grid capability, the HIKE 200 features a 200-watt solar panel with 30-amp charge controller and prep for an additional side-mount panel.

Warranty

See your dealer for complete warranty information.

FOOTNOTES

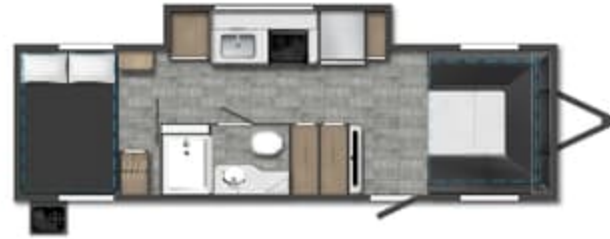

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of our vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. Floorplans feature a wide-body design - over 96-inches. In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96-inches in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
4. Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
5. Sleeping capacity is the maximum based on a specific floorplan.

Because features, specification, equipment, and options may vary from those highlighted on this website, the buyer is responsible for confirming with the dealer the features, specifications, equipment, and options included in their specific vehicle.

In addition, Winnebago's program of continuous product improvement may result in changes to vehicle specifications, equipment, model availability, and price without notice.
