More Information

Built ruggedly to explore and protect the outdoors, the REI Co-op Special Edition Basecamp is our most sustainable travel trailer to date. With environmentally friendly and lightweight construction, innovative water conservation features and optional composting toilet, and an exclusive solar upgrade, your eco-footprint is not only lighter – it's heavy on the cool factor. And with the 25-piece REI Co-op kit, you've got all the gear you need to outfit your adventure. Eco-friendly, expertly designed, and off-grid capable, the REI Co-op Basecamp is here to fuel your outdoor dreams.

- REI Co-op kit includes essential camp gear and storage containers designed for a perfect fit.
- UV-LED Smart Drinking Faucet purifies drinking water, while a recirculating water heater delivers on-demand hot water.
- Post-consumer recycled materials incorporated into the interior design.

How It's Made

Informed by more than 90 years of quality craftsmanship and expert design, Airstream travel trailers are hand-made in Jackson Center, Ohio. Only the best materials are used – from seamless, waterproof composite flooring, to the hardware and finishes we use to build our cabinetry, to the rivets and aluminum that form the shell. In building our world-famous travel trailers, we rarely do things the easy way. That's why an Airstream travel trailer can last a lifetime – or more – and be passed down from generation to generation for years of enjoyment.
