Midnight Flamingo

An Optional Upgrade Package
for Flying Cloud

The perfect balance of style and functionality, Midnight Flamingo upgrades the interior and exterior of Flying Cloud 25FB and 27FB Travel Trailers with striking blackout design elements and off-grid functionality. Discover the magic of Midnight Flamingo's optional upgrades and start dreaming of your next travel adventure.

Flying Cloud

Product Highlights

Modern Style, Upgraded Functionality

Midnight Flamingo's black exterior accents immediately catch the eye while also providing functionality during travel. A durable black protective coating on the front stone guards, removable LP cover, and bumper with storage provide protection from road debris while setting the stage for Midnight Flamingo's visual style.

Blackout Accents and Badging

Black trim replaces Airstream's standard chrome trim, paired with black rub rail and blackout stylized aluminum wheels to complete the midnight look. Flying Cloud's standard white badge gets the midnight treatment, with a black background and bold silver lettering. Near the main entry door, a secondary badge features a textured black background imprinted with a silver flamingo icon signifying this unique optional package.

Product Highlights

Style for Miles

The Midnight Flamingo upgrade package replaces Flying Cloud's standard decor with new textures, a monochromatic palette, and additional blackout features on the interior that echo the exterior styling.

Klipsch® Audio Sound System

Fire up the premium Klipsch audio system and stream your favorite music, movies, podcasts, and more.

A Klipsch head unit connects to four speakers via Bluetooth® and provides a rich, immersive experience that will delight audiophiles and casual listeners alike.

Product Highlights

Made in the Shade

The patio awning features a charcoal tweed Sunbrella® fabric, complete with miniature embroidered flamingo icon that echoes the commemorative badge. The matching rear and roadside awning package comes standard to complete the look. The rear hatch is the perfect feature for loading gear like kayaks, bikes, or enjoying the breeze during dinner.

Closer to the Action

A 3-inch lift kit provides ample ground clearance for tackling more challenging terrain, while a powerful 2.5kWh lithium battery bank and 300W of roof-mounted solar panels keep you powered up for fun. Midnight Flamingo's boondocking ability delivers comfort when you travel beyond the campground. When connected to the shore power, a 50A electrical service powers dual ducted air conditioners with heat pumps.
